Dear Ms. Berry:

Enclosed are three (3) copies of the Draft Final Sampling and Analysis Plan for Operable Unit No. 4 (Sites 41, 69, and 74). This document has been submitted in accordance with LANTDIV's scope of work dated August 31, 1993.

Copies of these reports have been forwarded via overnight mail to Mr. Neal Paul (MCB Camp Lejeune), Mr. Patrick Watters (North Carolina DEHNR), and Ms. Gena Townsend (EPA Region IV). In addition, copies of the referenced documents have been forwarded via certified mail to the members of the Technical Review Committee (TRC).

In accordance with the project schedule, comments to the Draft Final Sampling and Analysis Plan are due no later than November 7, 1993. This would give Baker three weeks to revise the report and submit the Final Project Plans on or before November 28 (the FFA submittal date).
